

Correction for Ritz et al., Social anxiety disorder-associated gut microbiota increases social fear

Correction for “Social anxiety disorder-associated gut microbiota increases social fear,” by Nathaniel L. Ritz, Marta Brocka, Mary I. Butler, Caitlin S. M. Cowan, Camila Barrera-Bugueño, Christopher J. R. Turkington, Lorraine A. Draper, Thomaz F. S. Bastiaanssen, Valentine Turpin, Lorena Morales, David Campos, Cassandra E. Gheorghe, Anna Ratsika, Virat Sharma, Anna V. Golubeva, Maria R. Aburto, Andrey N. Shkoporov, Gerard M. Moloney Colin Hill, Gerard Clarke, David A. Slattery, Timothy G. Dinan, and John F. Cryan, which published December 26, 2023; 10.1073/pnas.2308706120 (*Proc. Natl. Acad. Sci. U.S.A.* **121**, e2308706120).

The authors note that in the Antibiotic Treatment section of the Methods Summary, “vancomycin” is incorrectly listed twice as an ingredient; the second listing should read “gentamicin.” The concentration and all other details should remain unaltered.

As such, on page 7, left column, 2nd full paragraph, line 3, “vancomycin” should instead appear as “gentamicin.” The online version has been corrected.

The authors note that this change does not affect the results or conclusions of the manuscript.
