

Laurents Marks regarding the whistleblower interview
*”The Third World War – The Geophysical Event –
The Legacy of the New World – Final Version”*

updated at

October 23, 2023

Abstract

This document is a viewer made production, which accompanies the interview with Alexander Laurent. It therefore doesn't guarantee to be flawless or in perfect accordance to the meant content to its original.

Translation

The following translation is an explanatory text from Alexander Laurent regarding the interview with the officer. It stems from the official telegram channel ([link above](#)).

Part 1/6

Read this following text after watching the above posted video. It will help you to understand the complex situation on earth better. You can read this text in advance as well, but should re-read it after watching the video. [...]

The Whistleblower from the talk with Bill Ryan from "Project Camelot" stems from the military area; an Officer, who obtained that knowledge 2005 not by accident from the elites, so he did not randomly witness this meeting, but rather it was purposefully staged from these elites. It should look like a mistake, that he gained that knowledge. Some years later in 2009, shortly before he decided to give an interview about that accidentally transported knowledge, he obtained further information due to an "special intervention", which cannot be controlled by the Club. Insights, which reach into the "deepest depths of the rabbit hole": Knowledge about spiritual clubs, a dimensional acting AI and the struggle of "future" and present people with an "intergalactic federation" – the Club. He refers to these information at the end of the interview with Bill Ryan from "Project Camelot" (linked video), from minute 50 onward. He only implies these information diffusely and indirectly, by speaking of "us" – the in another dimensional level located humanity. If you are familiar with the interviews between me (Alexander Laurent) and Eurasia Couple, you can detect further confirmation for the reported circumstances.

The background for the staged "inauguration" into special political and extraterrestrial secrets in 2005 represents the intend to produce a credible individual, who should spread disinformation about the political imbalance and the diabolic system on earth, besides that about evil ETs as well, which will be eliminated by good willing, intervening ETs. But during the interview with Bill Ryan in January/ February 2010, the officer did not go into detail about those us stalking "evil ETs". So he didn't nurture this narrative, neither evil ETs attacking us, nor good ETs fighting evil ETs to save us – which was actually intended by Club and digital nobility with the officer's "accidental inauguration" in 2005.

This officer was only one of many, who got loaded with such information by means of a specially prepared staging. Club and digital nobility hope that some of the "accidentally inaugurated" individuals will spread these information anonymously in the public. Club and digital nobility always use the same method: They load people with such information, for instance 100 different individuals, who work in influential governmental or public areas. Roughly 10 people react to that in form of a public but anonymous report or announcement. Those, who stay silent – so the remaining 99 – are monitored a while and killed, in case they decide to become public as well. One kills them, since Club and digital nobility cannot risk that details about the staging – the way how this knowledge is transported – come to light. That so many people experienced the same situation (like that officer in 2005).

Part 2/6

In summary, in 2005 the said officer was loaded from certain elites with exactly coordinated (dis-) information regarding the situation on earth, which should have served the adaption and improvisation of the upcoming course of catastrophic events. In 2010 that officer publicly transported these information in an interview with Bill Ryan at "Project Camelot", approximately like Club and digital nobility intended. One year in advance, in 2009, the said officer unwillingly got into a special "resonance"- contact with something, that let him descend into the "deepest depths of the rabbit hole". Based on this diffuse experience and due to the simultaneous decoupling from the Club's neuronal monitoring (look interview 1, part 4, minute 39:45) he decided to place covert hints for the audience, in order to set connection points, which explained more detailed, what is really happening on earth (minute 50 onward). The club assumed his descriptions to be his personal "spiritual decoration" – even very expedient regarding the adaption and improvisation of their planned and initiated course of catastrophic events. Due to the multiple possible meanings of his words, Club and digital nobility failed to clearly identify this infiltration, even afterwards. This is why only years later – so now – the covert hints and connection points are revealed, in order to confirm the actual state on earth and to further explain it.

I (Alexander Laurent) used similar or identical words, in order to provide recognition and to produce a link. For instance when describing the "geophysical event", or how we humans are suppressed and held down by the production of fear. Or regarding the description of humanity in Dimension Seven, which the officer only described in an unadorned language (01:01:21 onward):

"Those good willing ETs. I don't like to call them ETs in the first place. I believe, that these humans are us, and we are them."

It is recommended to hear the interview again now, to verify what the officer said in regard of that and how he said it. This will show you once more, how the interviews with me (Alexander Laurent) are to understand, and what all of this means.

Part 3/6

What should stay in your memory now, regarding those circumstances:

The officer's loading of information, staged by the elites, took place in 2005. Like you already know from my interviews, those plans and scenarios, which the officer named during the interview, are being supplemented by additional crisis, catastrophes and salvation stagings – updated, modified, supplemented or withdrawn. Variation adaptations, which will happen in advance to the war in the Middle East, or have happened already (Corona). One of the possible variation adaptations contains an eventually happening civilizational incident (blackout, accident in a nuclear power plant) and a real and deadly "virus outbreak", which does not necessarily takes place during World War Three (The officer refers to that as the "Chinese Cold".), but rather now in advance, during non war-like times. Special tumults from migrants might be omitted or less intense, it depends on the required chaos. The lynching of politicians, good situated and many more professional groups remains absolutely certain though. During, or right after World War Three an asteroid threatens earth, a savior might appear and / or ETs attack, fight each other or they are helping us – depend-

ing what fits best. The geophysical event "might" be very drastic in combination with other events. This depends whether the Club needs to amplify it, in order to keep the upper hand. If people are aware of this event, they can – as the officer implies – "deal lightly with it to come out pretty well at the other end" (01:12:05). The formation of tsunamis, the appearance of earth quakes and volcanic outbreaks remains a reliability. One only needs to be aware of that, to mitigate its effects by preparation for everyone as good as possible.

To stop this development widely and to survive well, respectively, it is of no help to simply look away and be ignorant. You can only prevent this, if you clearly explain coming course of events publicly; If you start to reveal the background of all of this. If you formulate, who, what and why is behind it, why it happens, which wide causes are responsible. You have to talk about that publicly. Don't let someone tell you, that passiveness is a good thing, regardless whether this originates from a controlled (alternatively looking) opposition, or from wise esoteric and religious fanatics, or if governments worldwide try to instill this behavior. Defend yourselves. This is how you can change things. And don't forget to prepare physically and to say "No!" to anything what is demanded of you.

Part 4/6

Background of the potential course of events, scattered by the Club:

The real reason why Club and digital nobility use such "accidental inaugurations" and information loadings (e.g. towards the mentioned officer). are events, which happened in front of the Club in 2002, which caused a fundamental concussion of their paradigms, similar to a culture shock. The Club accomplished in 2002 to prove and produce a "non-uniform potentiality" within our 4D world, respectively (Within the physical-material world); a non-uniformity, in which the spectrum of likelihood variance of a monitored line of events (The Club's method to take rough looks into the future) clearly has been displaced significantly. To such an extent, that it was impossible of a natural origin. The Club immediately understood, that it represents a conscious intervention from intelligent beings – "Beings" from another "Dimension Folding". This "anomaly" was so impressive, overwhelming and threatening on the same time, that it caused irritation about the nature of this phenomena. The Club couldn't know, if this displacement was a result of a mistake from these beings (future humanity), or if it was about provoking a special reaction from the Club or to produce it in the first place.*

*Regarding the concussion, which this event caused within the Club:

This observation caused a shock within the Club, an event as if every human of earth would clearly witness an unknown being for 5 seconds, standing beside us, shortly watching just to suddenly vanish again from reality. The nervousness among people on earth regarding such an event would rise significantly, we would be unsettled and finally wonder, if this happened intentional or by accident. Surely we wouldn't be able to forget it.

Part 5/6

Since the Club couldn't be sure, how to interpret it, they also couldn't rule out , that it only serves as trigger for a certain chain of events – such that a certain action is being performed or not performed by the Club. As a consequence the powerful species of the club had a big dispute and disagreement. Due to the clearly evident connection between this "anomaly" and one of their subjugated species, the founder species knew from the beginning, that this was not a coincidence. Regardless if intentional or not, if it relates to their system of control or not, and whoever is responsible from wherever – this action came from an unknown and probability superior power of another "Dimension Folding", which needed to be confronted rigorously. The founder species couldn't rule out, that this source represents one potentially in the future existing species, which they subjugate today. There had to be fast interventions by means of scattered adapted variants, to prevent an eventual upcoming liberation-singularity – the occurrence of a mandatory process. In short – regardless if counterproductive or not – the Club had to create numerous additional variance possibilities towards the species, with had been suspected to potentially free themselves. In order to dissolve and infiltrate the singular manifestation of an upcoming possible liberation. For all suspected species the Club created short term many new adaption variances, new stories about rescuing ETs, esoteric interpretations, the amplification of religious believe patterns, ect., in order to distract and redirect a species ability to understand during the catastrophic events. Finally this allows to canalize their insights and switch them off completely. In order to create such canalization, the Club uses among other means staged "accidental inaugurations" of evil actions and secret plans – so the infiltration of a "random listener", who transports these information to the public. On this way initiated catastrophes can be modified, dissolved, supplemented, exchanged or improvised. Due to the uncertain Club back than, who couldn't evaluate when the "anomaly" occurred, if their most dangerous suspicion prove itself to be correct – that this "Dimension Folding" originates from an escaped species – they needed to implement short-term replacing event variances towards all species on their all planets and moons, who are suspected to free themselves in the near future, in order to initiate alternative catastrophic courses of events. These alternatives should allow the Club to control the decimation of those species, to keep it steerable and flexible, in order to manifest a global control system.

The talk at Project Camelot:

This talk with Bill Ryan from 2010, in which the officer reports about how the elite's plans and methods of the upcoming catastrophic course of events (staged) have been introduced to him in 2005, not only reveals the (old) to to that point planned locations of war, global adaption variances and the apparatus of steering by the elites, but it also documents the re-combination and direct comparison to the interviews with Eurasia Couple and me, the new adaption variants of Club and digital nobility for the upcoming time. Especially from minute 50 onward you'll find covert embedded information about our true nature, the definition of timelines and our "origin" are of high importance.

Part 6/6

Important features the officer names direct or indirectly;;

- the significance of work refusal towards these powers
- the conscious mention, that there are no "good ETs", which rescue us, but rather that it is about a beyond the dimensions existing humanity, which protects us now – described as: *"We are them. [...] Those humans, which in fact we are ourselves."* etc. (01:04:45)
- with the help of the officers report, viewers are able to understand themselves, that he stood and stands in a connection to a "higher world", respectively.
- the Club's steering-control over people, by exploiting and triggering our innate death fear (e.g. by using a staged or real pandemic)
- the control of people by division into groups, nations and affiliations
- the control by scattering violence and hatred among people
- the control of politicians due to pressure, force and blackmailing (from 01:15:45 onward)
- in advance to the geophysical event, humanity shall be weakened and decimated strongly, in order to gain absolute control (complete surveillance) over the people, so that in upcoming times our development can be implemented without disturbance (digitalization)
- the displacement of the Earths axis due to a pole jump with a short term loss of the Earths magnetic field
- the staged courses of events can dissolve, be altered, shortened, if people recognize, that they only need to stand up against "them"
- an "increased consciousness" does not mean a religious or esoteric experience/ enlightenment/ development, but rather the insight to understand, what is happening on earth, how we are nagged and steered by the creation of fear (01:05:57 onward). Religion, esoteric and mysticism do not contain enlightenment, bur rather the "suppression of consciousness", it serves the Club, in order to keep us numb and relaxed during catastrophic times, such that enough people die
- "the lack of violence" does not only mean, that one can perform a peaceful resistance without applying violence, like Ghandi did – so to not only sing "Hare Hirshna" (note from Laurent) – but rather it means to boycott by means of work refusal in particular
- the hyperdimensional consciousness, of which we all are a part (01:08:15 onward)

Warm regards,
your Alexander Laurent
